### Certification of Technology Access for All Students

The Hillsborough City School District is a 1:1 district, in which all students are provided a device to enhance their learning. In August of 2020, all students were invited to check out and take home a HCSD chromebook (Grades 1-8) or iPad (Kindergarten) to use for distance learning. Each student was provided an HCSD Google Apps for Education account to access online software and tools which support and enhance learning opportunities. The tools and software accessible through Google Apps for Education, Clever, and GoGuardian have allowed classroom teachers to support student learning and facilitate online instruction. All families have access to high speed internet and our HCSD Technology Team works with parents to troubleshoot and solve connectivity, software, and hardware issues.
