Check out the NEW Measure H Webpage!

As part of our ongoing communication plan with our community, you can find the latest information on Measure H Projects by school site. Links on the webpage include projects:

- Under Construction
- In Planning, and
- Completed

We are excited to keep everyone up-to-date on the projects across all our campuses and the District Office! Click on the title or the photo below to access the webpage.

Crocker Makerspace and Crocker Culinary Arts classrooms have found new homes... scroll down to Page 3 to learn about all the details!

Measure H Projects

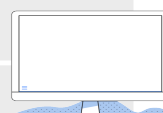

Measure H Projects

Crocker Middle School Projects

North Elementary School Projects

South Elementary School Projects

West Elementary School Projects

School construction in California requires a great deal of detailed planning and several specialized vendors. For more information on the timeline and requirements for a Capital Improvement Project at HCSD, please review our [Project Life Cycle info sheet](#).

The HCSD Facilities Team regularly requests authorization by the Board of Trustees to move forward with projects. This process outlines the project title, scope of work and proposed budget. Please find the current list of projects and budgets below. If you would like more detailed information, please click on the project name and the link provides additional details regarding the given project.

Roofing and HVAC

Wrapping up North and West, and the start of Crocker and South

New Roofing and HVAC Projects: Crocker and South Schools

Procurement contracts for the equipment are to be reviewed by the Board of Trustees in November. Once approved, the District will secure the equipment necessary for the roofing and HVAC projects at Crocker and South schools. These will be the same units we purchased and installed at North and West schools, creating consistency in operations for our maintenance team.

Pictured to the right are the new HVAC units and furnaces along with the new Pelican thermostats

North and West Roofing and HVAC:

The District and Blach Construction are wrapping up the North and West Roofing and HVAC projects. The mechanical engineers are checking to make sure all units are up and running smoothly before finalizing these projects.

Pictured to the left are a few of the Citizens Bond Oversight Committee Members.

Bonnie Feldman, Sara Heston, Alan Rittenberg, Mairin Macaluso and Superintendent Ana de Arce

Misc. Other Projects

Lighting at South School, Security Cameras, Makerspace & Culinary Arts

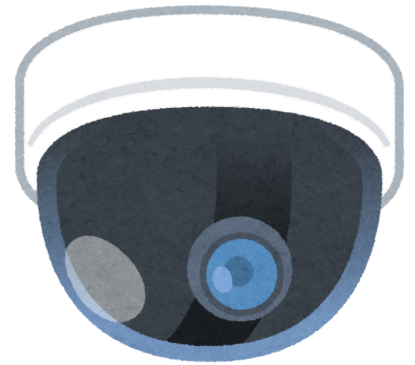

South A-Pod Lighting

The district has selected a contractor to install the new LED lights to illuminate South Elementary School! Due to the current placement of the lights, the contractors will need to start work during the Winter Break so that classroom learning will not be disrupted.

Pictured to the left is the existing conditions of South's Library.

Security Camera Pilot Program

The District has decided to proceed with the procurement of Verkada cameras for our security camera project. District staff are working on getting a contract approved in November for a contractor who has expertise in installation of these devices. The contractor is very familiar with HCSD systems as they have worked with our IT team on our Uninterrupted Power Supply (UPS) Upgrades project and more. If approved, we look forward to partnering with them again for the security camera project!

Crocker Makerspace and Culinary Arts Classrooms for 2025 and beyond!

We are excited to share that the Crocker Makerspace Program will be moving to the current Crocker Lecture Hall. In working with Crocker staff, a plan has been developed to reconfigure the Lecture Hall into a Makerspace.

Additionally, the Crocker Culinary Arts Program will move to a new location as well. The program will now be housed in the current staff workroom / conference room. Classroom designs are currently being developed based on feedback from staff.

HCSd will be working with WRNS Studio in developing the spaces for both programs. We are excited about the new “homes” for these electives!
