Data for other districts, counties, and the state is not yet publicly available.

What can we learn from looking at the scores of other districts? Our reason for looking matters.

We will see **color dials** representing **status and change** on the California School Dashboard for 2023.

Where do we go from here?

- Digging deeper by student groups.
- Site-based sharing with principals.
- Continue monitoring student growth.
- Use of formative assessment
- Ask questions like:
 - What happened with math in elementary?
 - How do we determine the effectiveness of our Tier 1, Tier 2, and Tier 3 (MTSS) supports?
 - What other data can we use to help us answer our questions and triangulate with CAASPP?
